

# Design & Technology Progression Grid

Creswell C of E  
Infant and Nursery School

## Key skills and knowledge - Sticky knowledge

	F1	F2	Y1	Y2
<b>Knowledge</b>	Identify a range of tools	Know what task each tool can be used for.	<p>Can understand and explain why they have chosen a particular tool for a task.</p> <p>Understands and Describes how an existing product works (e.g. 'the toy moves when I turn the handle'). Describe others' work, including work by professional craftspeople and designers and say what they like and dislike about it.</p> <p>Explain how to keep safe during a practical task. Explain how they would fix simple products.</p> <p>Identify and talk about products that use electricity to make them work.</p> <p><b>Food &amp; Nutrition</b> Identify the main food groups, including fruit and vegetables. Identify the source for common foods.</p>	<p>Select and explain why they have chosen a particular tool for a task and explain the safety considerations</p> <p>Can describe why a design, building or designer is important and fit for purpose.</p> <p>Understand how to create working circuits to light a bulb or work a buzzer.</p> <p><b>Food &amp; Nutrition</b> Explain how to work hygienically. Recognise the need for a variety of foods in a diet. Explain where the food they eat comes from (e.g. by referring to countries, counties, animals and plants).</p>
<b>Skills</b>	<p><b>Design</b> Develop own ideas &amp; decide which materials to use to express them.</p>	<p><b>Design</b> Develop own ideas and consider / experiment with a range of materials to</p>	<p><b>Design</b> Draw a simple picture of an intended design with basic labelling. With help, put ideas into practice.</p>	<p><b>Design</b></p>

<p>Explore how things work - wind up toys, pulleys, cogs</p> <p>Make imaginative and complex 'small worlds' with blocks and construction kits, such as a city with different buildings and a park.</p> <p><b><u>Make</u></b> Make imaginative and complex small world, with blocks and construction kits. Develop their own ideas and then decide which materials to use to express them. <b>Join different materials and explore different textures.</b> Use various construction materials, e.g. joining pieces, stacking vertically and horizontally, balancing, making enclosures and creating spaces Use available resources to create props to support play. Develop new skills &amp; techniques Use tools for a purpose</p> <p><b><u>Evaluate</u></b> <b>Notice what other children &amp; adults do,</b></p>	<p><b>express their ideas and understanding.</b> Create collaboratively sharing ideas, resources &amp; skills.</p> <p><b><u>Make</u></b> Use increasing knowledge &amp; understanding of tools &amp; materials to explore their interests &amp; enquiries &amp; develop their thinking. Create representations both imaginary &amp; real-life. <b>Use different techniques for joining materials</b> Use tools independently, with care &amp; precision</p> <p><b><u>Evaluate</u></b> <b>Express &amp; communicates working theories, feelings &amp; understandings</b> Responds imaginatively to art works &amp; objects Return to &amp; build on previous learning, refining ideas &amp; developing their ability to represent them Discuss problems &amp; how they might be solved</p> <p><b><u>Food &amp; Nutrition</u></b></p>	<p>Work as part of a class to solve simple design problems. Begin to assess the usefulness of a range of materials according to their characteristics.</p> <p><b><u>Make</u></b> Cut out shapes from a range of fabrics and papers. Fold, tear, roll and cut paper and card. Cut accurately and safely with scissors. <b>Join appropriately, using glue or tape.</b> Build simple structures. Use wheels, axles, levers and sliders. Generate, develop, and communicate their ideas through discussion, drawings and models. Demonstrate the ability to use simple tools and equipment to perform practical tasks.</p> <p><b><u>Evaluate</u></b> Talk about their own and others' work identifying strengths or weaknesses. Begin to review ideas based on feedback from others Begin to explore and evaluate existing products. <b>Begin to evaluate ideas and products against design criteria.</b> Begin to interpret design criteria so that products are purposeful, functional and appealing</p> <p><b><u>Food &amp; Nutrition</u></b></p>	<p><b>Produce detailed, labelled drawings or models of products based on design criteria.</b> Think of ideas and plan what to do next, based on their experience of working with materials and components. Investigate a range of existing products and say if they do what they are supposed to do.</p> <p><b><u>Make</u></b> Use tools safely for cutting and joining materials and components. Work safely and hygienically in construction and cooking activities. Cut, measure, form and shape materials to fix or repair something, explaining objectives. <b>Join fabrics using running stitch, glue, staples, over sewing and tape.</b> Create simple hinges and pop-ups using card Cut wood/dowel using a bench hook and hacksaw. Attach features to a vehicle (e.g. an axle and wheels or a sail and rudder). Join appropriately, with glue and /or tape, for different materials and situations. Create and use wheels and axles, levers and sliders.</p> <p><b><u>Evaluate</u></b> <b>Explain how closely, finished products, meet their design criteria and say what they could do better in the future.</b></p>
---	---	--	---

	<p>mirroring what is observed, adding variations &amp; then doing it spontaneously</p> <p><b>Food &amp; Nutrition</b></p> <ul style="list-style-type: none"> <li>• Talk about the differences between materials &amp; changes they notice</li> <li>• <b>Make healthy choices</b></li> </ul>	<p>Look closely at similarities, differences, patterns &amp; change</p> <p>Know &amp; talk about the different factors that support their overall health &amp; well-being</p>	<p>Measure and weigh food items using non-standard measure (e.g. spoons and cups).</p>	<p>Improve structures by making them stronger, stiffer and more stable. Describe similarities and differences between own and others' work including work by profession craftspeople and designers.</p> <p><b>Food &amp; Nutrition</b></p> <p>Cut, peel, grate and chop a range of ingredients to make dishes from other countries.</p>
<b>Vocabulary</b>	<p><b>Design &amp; technology</b></p> <p>Material</p> <p>Join</p> <p>Tools</p> <p>Safely</p> <p>Cut</p> <p>Roll</p> <p>Tear</p> <p>fold</p> <p><b>Food &amp; Nutrition</b></p> <p>Healthy</p> <p>Un healthy</p> <p>clean</p>	<p><b>Design &amp; technology</b></p> <p>Design</p> <p>Make</p> <p>Compare</p> <p>Different</p> <p>Stronger</p> <p>Wheels</p> <p>Model</p> <p>Shape</p> <p>Materials</p> <p>Technique</p> <p>Texture</p> <p>Construct - Build</p> <p>Model</p> <p>Shape</p> <p>Structure</p> <p>Tools</p> <p>Design</p> <p>Assemble</p> <p>Materials</p> <p>Assemble</p> <p>Join</p> <p>Build</p> <p>Balance</p> <p><b>Food &amp; Nutrition</b></p>	<p><b>Design &amp; technology</b></p> <p>Product</p> <p>Evaluate</p> <p>Designer</p> <p>Axle</p> <p>Lever</p> <p>Slider</p> <p>Structure</p> <p>Mechanism</p> <p>Product</p> <p>Pivot</p> <p>Slot</p> <p>Fabric</p> <p>Template</p> <p>function</p> <p><b>Food &amp; Nutrition</b></p> <p>Prepare</p> <p>Surface</p> <p>Hygiene</p> <p>Food Type</p> <p>Farmed</p> <p>Manufactured</p>	<p><b>Design &amp; technology</b></p> <p>Criteria</p> <p>joining and finishing techniques</p> <ul style="list-style-type: none"> <li>• Components</li> <li>• Template</li> <li>• Pattern</li> </ul> <p>Vehicle</p> <ul style="list-style-type: none"> <li>• Wheel</li> <li>• Axle</li> <li>• Axle holder</li> <li>• Chassis</li> <li>• Motion</li> </ul> <p>Structure</p> <ul style="list-style-type: none"> <li>• Weak</li> <li>• Strong</li> <li>• Framework</li> <li>• Folding</li> <li>• Rolling</li> </ul> <p><b>Food &amp; Nutrition</b></p> <p>Food groups - fruit and vegetables, carbohydrates, protein</p> <p>Vegetarian</p> <p>Hygienic</p>
